

Hyvärilä youth centre

Hyvärilä youth centre is one of nine Finnish youth centres, operating under the auspices of the Finnish Education and Culture Ministry. Our main activities include camp schools and Nuotta camps for the youth from all over Finland, and international activities year-round. We work to create unforgettable learning experiences for young people through non-formal methods, nurture connection with nature and culture of North Karelia, and empower young people to discover the world and expand their horizons through international projects.
