ParticipART is a youth exchange project supported by the Erasmus+ programme. The project is coordinated by Jarron Club from Spain.

The goal of the project was to share knowledge and skills about different artistic disciplines as dance, theatre, juggling, etc. in order to use them as a tool to actively express ourselves in society. After learning from all the disciplines, participants blended everything to make a final performance to share and show newly acquired skills.

The youth exchange was organised in Malaga, Spain between November 23rd and December 4th, 2019. There were 37 participants from seven countries (Finland, Spain, Latvia, Portugal, Poland, France and the Great Britain).
