LIVE CLOSE TO NATURE AND GET CREATIVE is a volunteering project where two (2) volunteers will work in the core activities of the local association. The project takes place in the small rural village of Lampinsaari in Northern Ostrobothnia, Finland.

Lampinsaari has a colorful history as a lively mining village. After the mine was closed in the 1990s, some villagers decided to stay and build new grounds for the community. A former school building has been transformed into a camp centre that offers facilities for e.g. summer camps and travel accommodation. 'Gunnar's Mansion' ("Gunnarin kartano") was born.

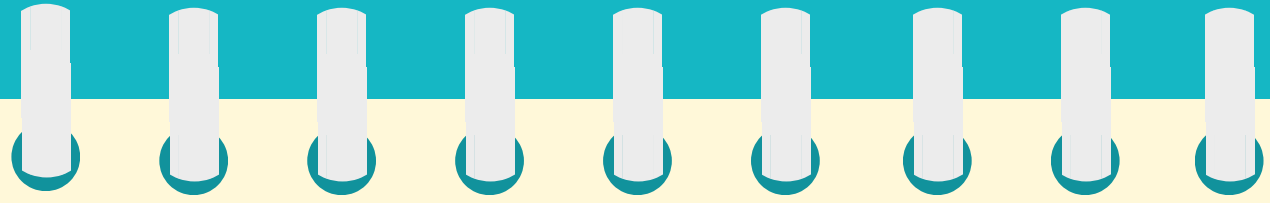

The hosting organisation wants to develop 'Gunnar's Mansion' as a heart of the community, providing services and activities for the locals and visitors. Children and youth form a particular target group.

The aim of this project is to create new activities and leave a lasting impact on the village.

Volunteers' tasks include e.g.

- camp centre's general tasks
- planning and developing camp centre's activities
- creating and implementing activities for local children and youth (clubs, events, sports, cooking, nature activities etc)
- producing works of art/music/culture/handicrafts (depending on volunteers' own skills and interests)
- creating and producing media contents, especially for international audiences

Lampinsaari attracts people with beautiful nature and tranquility. Volunteers will experience all four seasons of the year: from 24 hours of daylight during summer to the white winter wonderland.
